Server Deployment & Infrastructure Inventory

Server Hostname: server.sannainnovations.com | Primary IP: 103.160.144.225 | OS: Ubuntu Linux 20.04 LTS (x86_64)

TOTAL ACTIVE PROJECTS	DOCKER STACK CONTAINERS	PM2 MANAGED APPS	NGINX VIRTUAL HOSTS
15 Applications	34 Containers	4 Online Services	17 Enabled Sites

#1 - Sanna CRM (Enterprise Multi-Tenant Sales & MIS Suite)

RUNNING (ACTIVE)

Domain / Access:	**http://103.160.144.225:8088 | http://103.160.144.225:3050 | crm.sannainnovations.com**
Containers / PM2:	PM2: sanna-crm-api (PID 1135054) | Nginx Static SPA Dist
Ports & Bindings:	**Direct IP: 8088 / 3050 -> Frontend | Express API Backend: 127.0.0.1:5055 (proxied at /api/ & /health)**
Volumes & Paths:	Web Root: /var/www/sanna-crm/dist | Backend: /var/www/sanna-crm/backend | DB: /backend/db.json & SQLite
Description & Notes:	Sanna Innovations CRM: 57 Clients, 51 Deliverables, 155 Financial Records, 12 ML + 12 CL Leave Quotas, 9h Auto Attendance.

#2 - Astra CRM (The Astra AI Enterprise SaaS Suite)

RUNNING (ACTIVE)

Domain / Access:	**astracrm.theastraai.com | astracrm.sannainnovations.com**
Containers / PM2:	PM2: astra-crm-api (PID 1095490) | Nginx Static SPA Dist
Ports & Bindings:	**Backend Express API: 127.0.0.1:5001 (proxied at /api/ & /health) | Frontend: Nginx (80/443 SSL)**
Volumes & Paths:	Web Root: /var/www/astra-crm/dist | Backend: /var/www/astra-crm/backend | DB: astra_crm_dev.sqlite
Description & Notes:	Astra AI multi-tenant SaaS CRM platform with sales pipeline, quotation engine, and billing automation.

#3 - Intern Tracker App (MongoDB Isolated Backend)

RUNNING (ACTIVE)

Domain / Access:	**tracker.sannainnovations.com | http://127.0.0.1:9050**
Containers / PM2:	intern-tracker (Python Gunicorn Web App), tracker-mongodb (Mongo 4.4)
Ports & Bindings:	**Internal Gunicorn Host Port: 127.0.0.1:9050 -> 5000/tcp | DB: 27017 (Internal Docker isolated)**
Volumes & Paths:	Network: tracker-network | Volume: /root/mongodb_data | App Root: /app
Description & Notes:	Main intern daily/weekly work log tracker. Database firewalled inside private Docker network.

#4 - Sanna LMS Microservices Platform (21 Containers)

RUNNING (ACTIVE)

Domain / Access:	**sannalms.sannainnovations.com | Admin: admin.sannalms.sannainnovations.com**
Containers / PM2:	21 Containers: sannalms-kong, sannalms-keycloak, kong-db, sannalms-user-service, auth, course, college, etc.
Ports & Bindings:	**8085 (Web UI), 8086 (Admin), 8180 (Keycloak), 8010/8011 (Kong Gateway), 5433 (Postgres), 6380 (Redis)**
Volumes & Paths:	Network: sannalms_default | Path: /root/SannaLMS | Volumes: sannalms_postgres_data, minio_data
Description & Notes:	Full microservices enterprise Learning Management System backed by Keycloak IAM & Kong API Gateway.

#5 - MIS Portal (Sanna MIS Attendance & Payroll)

RUNNING (ACTIVE)

Domain / Access:	**mis.sannainnovations.com | http://103.160.144.225:8000**
Containers / PM2:	mis_portal (Python Django/FastAPI Container, Container ID: 0f21e34b04b3)
Ports & Bindings:	**Host Port: 0.0.0.0:8000 -> 8000/tcp | SQLite Database Storage**
Volumes & Paths:	Network: mis-sanna_default | Binds: /root/mis-sanna/backend & /root/mis-sanna/frontend
Description & Notes:	Executive Management Information System with project deliverables, ad spend, and team attendance.

#6 - MedAI Healthcare Diagnosis Platform

RUNNING (ACTIVE)

Domain / Access:	**medai.sannainnovations.com**
Containers / PM2:	medai_frontend_1 (Next.js), medai_backend_1 (FastAPI), medai_db_1 (Postgres 16), medai_redis_1 (Redis 7)
Ports & Bindings:	**Frontend: 0.0.0.0:3099 -> 3000 | Backend: 0.0.0.0:8099 -> 8000 | DB: 5432 (Internal) | Redis: 6379**
Volumes & Paths:	Network: medai_default | Volume: medai_medai_pgdata | Code: /var/www/medai
Description & Notes:	AI-assisted medical diagnosis and clinical records web application.

Server Deployment & Infrastructure Inventory

Server Hostname: server.sannainnovations.com | Primary IP: 103.160.144.225 | OS: Ubuntu Linux 20.04 LTS (x86_64)

#7 - Astra Ads / Sanna Ads Lead Ingestion Suite

RUNNING (ACTIVE)

Domain / Access:	**ads.sannainnovations.com | astraads.sannainnovations.com | astraads.theastraai.com**
Containers / PM2:	Docker: astraads-app (Container 2bc9da817b62) | PM2: sanna-lead-api (PID 1094973)
Ports & Bindings:	**App Container: 0.0.0.0:8090 -> 3000/tcp | Backend API: Port 5050 (proxied via Nginx)**
Volumes & Paths:	Network: astraads_default | Web Root: /var/www/sanna-ads-lead | Volume: astraads_astraads-data
Description & Notes:	Lead ingestion gateway and digital advertising campaign telemetry management suite.

#8 - AI Trip Planner Web Application

RUNNING (ACTIVE)

Domain / Access:	**travel.sannainnovations.com | Fallback Default Server Root**
Containers / PM2:	Gunicorn / Python Flask Backend + Nginx Static Frontend
Ports & Bindings:	**Internal Backend API Port: 5002 (proxied via Nginx at /api/) | Frontend: Nginx (80/443)**
Volumes & Paths:	Web Root: /var/www/ai-trip-planner/frontend | Backend Code: /var/www/ai-trip-planner
Description & Notes:	Intelligent travel itinerary generator and hotel/flight booking recommendation web application.

#9 - TradeSense Financial Portfolio Analytics

RUNNING (ACTIVE)

Domain / Access:	**tradesense.theastraai.com**
Containers / PM2:	PM2: tradesense (Next.js v16 Engine)
Ports & Bindings:	**Host Port: 127.0.0.1:3000 (proxied via Nginx 80/443 SSL)**
Volumes & Paths:	Web Root: /var/www/tradesense
Description & Notes:	Real-time stock market telemetry, risk metrics, and financial portfolio analytics portal.

#10 - AstraFlow Workflow Engine & Team Collaboration

RUNNING (ACTIVE)

Domain / Access:	**astraflow.sannainnovations.com | astraflow.theastraai.com**
Containers / PM2:	PM2: astra-flow-api (PID 1596581) + React Frontend
Ports & Bindings:	**Internal Backend Port: 9000 (proxied at /api/ and /uploads/) | Frontend: Nginx (80/443)**
Volumes & Paths:	Web Root: /var/www/astra-flow | Backend: /root/AstraFlow
Description & Notes:	Enterprise workflow automation builder, task lifecycle execution, and team sprint collaboration.

#11 - Sanna Web (Main Corporate Official Portal)

RUNNING (ACTIVE)

Domain / Access:	**sannainnovations.com | www.sannainnovations.com**
Containers / PM2:	Node.js Express API + Nginx Static Frontend
Ports & Bindings:	**Internal API Port: 3000 (proxied at /api/) | Frontend: Nginx (80/443 SSL)**
Volumes & Paths:	Web Root: /var/www/sanna-web
Description & Notes:	Official corporate portal for Sanna Innovations with client lead generation & service showcasing.

#12 - The Astra AI Brand Showcase & Landing Portal

RUNNING (ACTIVE)

Domain / Access:	**theastraai.com | www.theastraai.com**
Containers / PM2:	Nginx Static High-Performance Host
Ports & Bindings:	**Served via Nginx Ports 80 and 443 SSL**
Volumes & Paths:	Web Root: /var/www/astra-ai
Description & Notes:	Official brand landing page and product ecosystem showcase for The Astra AI suite.

#13 - Digital Marketing Portal & Lead Landing Pages

RUNNING (ACTIVE)

Domain / Access:	**digitalmarketing.sannainnovations.com**
Containers / PM2:	Node.js Service + Nginx Static Frontend
Ports & Bindings:	**Internal API Port: 5050 (proxied at /api/) | Frontend: Nginx (80/443 SSL)**
Volumes & Paths:	Web Root: /var/www/sanna-lead-project
Description & Notes:	Digital marketing campaign landing pages, conversion tracking, and lead capture hooks.

Server Deployment & Infrastructure Inventory

Server Hostname: server.sannainnovations.com | Primary IP: 103.160.144.225 | OS: Ubuntu Linux 20.04 LTS (x86_64)

#14 - Bulk Messenger Application (SMS/WhatsApp Gateway)

RUNNING (ACTIVE) ●

Domain / Access:	**bulk.sannainnovations.com | http://103.160.144.225:8080**
Containers / PM2:	bulk-messenger (Python Flask App, Container ID: 9a105d550a10)
Ports & Bindings:	**Host Port: 0.0.0.0:8080 -> 5000/tcp (proxied via Nginx)**
Volumes & Paths:	Web Root / App: /app
Description & Notes:	Bulk messaging service for automated SMS, WhatsApp, and email notification broadcasts.

#15 - ALIS Technology & Hipapa Hosting Infrastructure

RUNNING (ACTIVE) ●

Domain / Access:	**103.160.144.225 | server.sannainnovations.com | hipapa.in | www.hipapa.in**
Containers / PM2:	Directus / Node API + Nginx Static Host
Ports & Bindings:	**API Port: 8055 (proxied at /api/) | HTTP Port 80 & HTTPS 443**
Volumes & Paths:	Web Root: /var/www/alis-technology | /var/www/hipapa-hosting
Description & Notes:	Infrastructure management portal and default fallback block routing.
